SAVINGS BANKS SEND NOTICES TO DEPOSITORS.

New York, Nov. 26.-New York bankers are looking forward to a resumption of cash payments within a very

The return to a strictly cash basis in banking transactions is largely dependent upon the loan rates of money. These rates are steadily declining and call money practically went begging in Wall street late today at 3 per cent and below. Rates on time loans concomparatively high, but are gradually being lowered. By the time the time loan rate reaches 6 per cent it is believed the bankers will feel assured enough of their position to resume cash payments.

Premium on Currency.

The premium on currency was in evidence today, but the rates were nominal and the demand comparatively light. The early disappearance of all premiums was freely predicted. While it is declared that the New

York banks are in a position to resume currency payments at once, many such payments having been made within the last few days, they are said to be awaiting assurance from the interior that the wants of the cities there have been satisfactorily supplied. So long as the interior demands are heavy the New York banks are inclined to hold their currency in readiness for transfer and to ask the indulgence of their local patrons to the extent of ac cepting checks, which are being handled with comparatively little incon-

At the age of 28 Clarence began to hear through. an inward voice—a warning from the stomach. After each meal he would feel stomach. After each meal he would feel bloated—and belching became a habit. He began to be a light eater—and a heavy thinker. He tried to think out a cure, for now he would sit down at his meals absolutely disgusted at the thought or sight of anything to eat.

He would sit down at his meals without the trace of an appetite, just because it was time to eat.

it was time to eat. It was time to eat.

He would often feel a gnawing, unsatisfied "still-hungry" feeling in his stomach, even after he was through eating, whether his meal was well cooked or not. And he suffered a good many other things with his stomach that he could not explain, but that made him grouchy, miserable out-o'-sorts and generally sour on erable, out-o'-sorts and generally sour on

ARTIFICIAL DIGESTION.

A noted German scientist has pro duced a new liquid by means of which the digestion of food can be accom-plished artificially. This liquid is known to physicians and druggists a Catandir Compound.

Catandir Compound.

A prominent local physician, when asked regarding this new product, stated that it is being used by stomach specialists, and it has proven to be the most effective remedy known to science for the cure of dyspepsia and all kindred ailments of the digestive organs. He also gave the formula in which it is prescribed and is as follows: "One ounce Catandir Compound; two ounces Essence of Pepsin; three ounces Syrup of Ginger. Pepsin; three ounces Syrup of Ginger To be used in doses of one to two ta-blespoonfuls after each meal and also at bedtime when constipation is pres-

These ingredients can be obtained a These ingredients can be obtained at any well-stocked drug store, and easily mixed at home, and by its use digestion is accomplished in the stomach without its aid, so this much overworked organ obtains that needed rest, and will in this way soon recover its normal condition, even when there has been dyspepsia in the worst form.

This has proven a great boon to sufferers from all forms of stomach disorders as it makes a most pleasant orders as it makes a most pleasant mixture to take and probably the most effective known to science for this pur-

that thirty-day notices by depositors desirous of withdrawing their accounts would be met immediately, letters of notification have been sent out by some of the banks asking that the accounts e withdrawn or the notices canceled thout delay. The requests have met rith little response. It was learned toiay that one bank which had received notices of intended withdrawal heard from only twelve of its letters. The action taken by the banks with reference to withdrawals was said by one of the bankers to have been to avoid the carrying of accounts with the thirty-day notice hanging over them, and because it was found that all of the banks were able to accommodate CHICAGO CHAFES AT DELAY the banks were able to accommodate those who desired to withdraw their funds. There still remain the sixty-day otices affecting amounts over \$100, which will fall due in December. These notices are regarded by the banks as constituting no problem whatever, and there is said to be little doubt that they will be met before they are due.

> Within Two Weeks. Direct reports to the Chicago clearng house from hundreds of western cities encouraged the local bankers vesterday to believe that a resumption of cash payments will be possible within a fortnight. When the clearing house committee met the members had before them more than 500 letters in reply to the circular letter sent out last week asking for statements of conditions throughout the west. Practically all of the letters, it was announced, expressed a willingness to cooperate with the Chicago bankers in esuming a cash basis.

> There was considerable diversity of opinion however, as to how a general resumption should be brought about. Some thought it feasible to lift the lid in every banking center on the same day; others that the loosening of cash should be a gradual movement, beginning in the east and spreading to other parts of the country.

Killing Jones.

For the killing of Lewis Jones at the Assembly club rooms on Twenty-fifth street, a couple of months ago, Claude Clark, a negro, was yesterday sentenced to serve a five years' term in the state

sentence some time ago, but on account of a story told by one of the witnesses, that Clark had attacked with a knife and badly wounded a soldier in Montana, the passing of sentence was delayed until the records from that state could be secured. It developed that Clark had served six months at Deer Lodge, having been convicted of accessory to burglary. Clark received just half the minimum penalty for voluntary manslaughter.

Joseph L. Wilson Sues Colorado Mining Company for Alleged Interest in Property.

Joseph L. Wilson yesterday brought suit in the United States court against the Colorado Mining company to recover 23.336 shares of stock and \$166.668, aileged to have accrued to his account as lividends. The total amount of the claim is \$700,008.

It is alleged in the complaint that the plaintiff was a stockholder in the original Colorado company and was entitled to 73,334 shares of stock, less 15,000 shares, of which he disposed. The plaintiff al-leges that he never transferred any of the remaining shares.

The complaint sets forth that the Cold case against Pettibone. They have been instructed to hold themselves ready to go north on short notice. Three years ago, while Steve Adams was under arrest here, he telegraphed to Haywood for money to secure his release. The money arrived and Adams was released. This is the essence of the testimony that the Ogden men will give.

The complaint sets forth that the Colorado company was incorporated on Dec. 2, 1898, with a capital stock of \$125,009. On March 39, 1906, it is stated, a special meeting of the stockholders of the Colorado company was held, of which the complainant had no knowledge, and at which he was not represented, personally or his shares by proxy. At that meeting, the allegation is, the capital stock was increased from \$125,009. was increased from \$125,000 to \$200,000 and the million shares fixed by the reorganized company were held at 20 cents.

Meanwhile, Wilson says, he had no knowledge of the various transactions until last October, when he demanded of the Colorado company his alleged rights, which demand was refused.

Dividends on the Colorado stock, it is alleged, amounting to \$166,668 have been declared and the plaintiff says he is entitled to this sum. The complainant asks the recovery of alleged number of shares, 233,336 of the value of \$3 each.

The Colorado company is operating in The Colorado company is operating in the Tintic and is one of the largest producers in the state. Jesse Knight of Provo is heavily interested in the Colorado.

> Some people, unknowingly, use up more energy digesting heavy foods taken in excess, under the false impression that the "more they eat the more they can do," than they exert in doing their regular work.

Why not economize energy? It means the capacity to accomplish more, and that means more money. Change off from a heavy meat and pan-cake breakfast to a dish of Grape-Nuts and cream, a soft-boiled egg or two, and note how you can get through the morning's work and have a lot of energy left over-a thing that is a pleasure of itself.

Grape-Nuts contains all the food elements from wheat and barley for "economizing energy."
